

Price Guide for our new SIM plans.

SIM Price Guide.

It's always good to know how much things cost. That's why this guide gives you all the pricing info you'll need if you're a voice customer on one of our new SIM Plans and joined us on or after 15 July 2014.

Our SIM Plans are great value and each comes with a bunch of benefits that you'll love and won't find elsewhere.

We've set out what you'll get each month as part of your plan, the cost of any Services Outside Your Allowance and any Additional Services you may use (including International Charges). It's basically where you'll find all the relevant charges for your plan.

Our new SIM Plans

With our new SIM-only plans, available on 1 month rolling or 12 month contracts, you get all the perks of being a Three customer without feeling tied down, not to mention a great bunch of “Three benefits” which include being able to enjoy Feel At Home at no extra cost (for details on Feel At Home, see page 13).

Your SIM Plan

We like to do things differently here at Three. We’re the only network to let their customers use their plan’s allowances at no extra cost in 16 destinations (with more to come) around the world with Feel At Home (see page 13). All our new SIM-only plans include a set of allowances of voice, text and data units which you can use in the UK and in our Feel At Home destinations. Where and when you use these are up to you. How this works and your allowance options are set out below, and on the next page.

Extra benefits from being with Three

All 0800, 0808 and 0500 calls are free.

Your data allowance can be used as a personal hotspot in the UK (we used to call this tethering) – if you choose a plan with All-you-can-eat data, you can use up to 4,096 data units of this allowance each month as a personal hotspot.

Control your spend by choosing to block any out of bundle spending.

4G at no extra cost (when you choose a 4G phone and are in a 4G area).

Use your phone abroad at no extra cost. With Feel At Home. Covering 16 destinations including the USA, Australia and now France.

No nasty Pay Monthly price hikes – you agree to pay us a set amount for your package each month; we promise not to change that amount. It's only fair.

What are the costs outside of my allowance?

If you've used up all of your voice units, or want to make a call or text that your units can't be used for, the cost is set out below.

Outside of Allowance	Per minute / message
Calls to standard UK landlines (starting 01, 02, 03), UK Mobiles (any network) and your Three Voicemail – once you've used up your voice units included in your plan	35p
UK Video Calls	51.1p
UK Video Message	19.8p
UK Picture Message	19.8p

Once you've used up your data or voice units allowance, you may be able to buy an Add-on to allow you to continue making voice calls or using data. If you find that you need more allowances than your plan offers, you can contact us to talk about your options or to change your price plan to one with increased allowances.

What Additional Services are available?

These are the additional, optional or extra services you can bolt on to your plan, and include our range of Add-ons, the cost to call Special Numbers and our International Charges.

We may change or introduce new charges for Additional Services, or Services Outside of your Allowance. If we do, we'll publish any changes on our website. If any Add-ons are affected which have a recurring charge, we'll let you know at least 14 days before the charge changes. If we do make a change to an Additional Service, and you're not happy with it, you can cancel the Add-on(s) or stop using the Additional Services or Services Outside of your Allowance. If you'd prefer to end your contract instead, a cancellation fee would be payable (please see page 23).

Key things to note.

What about charges to Special Numbers and Directory Services?

There are certain types of calls in the UK that are not covered by your monthly allowance of voice units.

Charges for these calls are shown in the following tables. Please go to Three.co.uk/specialcall or call Customer Services for details of specific numbers.

Don't forget, calls to numbers starting 0800, 0808 and 0500 are now free, and calls to 084 and 087 numbers are charged at just 5p per minute.

How much does it cost for Directory Services?

There are a host of directory enquiry services available, all of which have different phone numbers and different charges. These calls do not come out of an allowance of voice units and you'll be charged the rates below to call these.

The table here only shows a fraction of the directory services available (which is changing frequently) – go to Three.co.uk/nts for the latest details.

What if I want to use my SIM abroad?

As a SIM only customer, international roaming is switched on automatically on your account, so you can use your SIM abroad, including Feel At Home destinations straight away.

With Feel At Home, International roaming is not subject to additional charges if you're using your SIM to contact any standard UK number (mobile or one starting 01, 02, 03) from a Feel At Home destination (see page 13) or to get online. In countries not covered by Feel At Home, additional costs will be incurred.

Calls made when you are in a non-EU country are normally charged per minute. Calls received when you are in a non-EU country normally have a one-minute minimum charge and are then charged by the second. When you're roaming in the EU, the minimum charge for a call is for 30 seconds, after which calls are charged by the second. Calls received in the EU are charged by the second with no minimum initial charges.

To help you manage your roaming costs when you're travelling, we'll text you information about call charges and roaming rates for each country you visit. We've also set up a worldwide data roaming limit of £41.29 per month to stop you spending too much. If you'd prefer you can have this limit removed by contacting Three Customer Services.

If you need to contact Three Customer Services while abroad call **+44 7782 333 333** (this call will be charged at your standard roaming rate). Calls made from abroad to your voicemail will also be charged at standard roaming rates.

Go to [Three.co.uk/roaming](https://www.three.co.uk/roaming) for more information.

Use your SIM abroad at no extra cost with Feel At Home.

Because your allowance of voice, text and data units can be used in the UK and in our Feel At Home destinations, you can call and text back to the UK and get online without paying a penny more than you would in the UK. No worries. Where and when you use your allowance is up to you.

It's also free to receive calls, texts, photo messages and video messages when in a Feel At Home destination.

Feel At Home can be used in the following destinations: **Australia, Austria, Denmark, Finland, France, Hong Kong, Indonesia, Israel, Italy, Macau, Norway, Republic of Ireland, Sri Lanka, Switzerland, Sweden and USA.** We're looking to add more destinations to this list, so you can enjoy this part of your package even more.

If you're in a Feel At Home destination and you come to the end of your allowance or want to make calls or send texts to non-UK numbers, these costs are set out below:

Calls	
• Made in a non-EU Feel At Home destination	15.6p per minute
• Made in an EU Feel At Home destination	18.8p per minute
Texts	
• Sent in a non-EU Feel At Home destination	4.9p a text
• Sent in an EU Feel At Home destination	5.9p a text
Internet data	
	10p a MB

Photo messages, video messages and video calls don't form part of your allowance; therefore the following charges will apply when in a Feel At Home destination:

Send photo messages	19.8p per message
Send video messages	19.8p per message
Make a video call (to any number)	Up to £2.04 per minute
Video calls received	Up to £1.53 per minute

Prices quoted above include VAT where applicable. Calls, texts and data used outside of the EU are not subject to VAT, except Monaco and Isle of Man.

Check three.co.uk/feelathome for more information and the latest on which destinations are included.

UK to Austria, Denmark, Finland, France, Italy, Republic of Ireland and Sweden.	46p	25.2p

Is there any other information about Feel At Home that I should know?

- You can't use your phone as a personal hotspot in a Feel At Home destination.
- You can stream and connect to VPNs, but you will find this is slower and the quality will not be as good as in the UK.
- We restrict the use of your data allowance for file-sharing (like peer to peer download services) or using certain sites to download or share large files.
- Feel At Home is intended for our UK customers who are visiting one of the destinations for short periods, like holidays or business trips. It isn't designed for people who live abroad or stay there for extended periods. If you use your SIM Plan exclusively in a Feel At Home destination for at least a month, twice within a year, we may suspend international roaming on your account, meaning you would no longer be able to use your phone or device abroad. Of course we would let you know in advance.

Please note: Three reserves the right to suspend this service if we reasonably believe that you are using VPN to access illegal or improper content or in contravention of our use requirements set out in our Terms and Conditions of use for Three Services. We reserve the right to extend, withdraw or modify the terms of Feel At Home and/or the destinations of service included at any time. See Three.co.uk/feelathome for full details on how this service works and additional details that may be of interest.

What about destinations not covered by Feel At Home? How much will it cost to use my SIM there, or to call and text numbers in those countries?

It's important to remember that the allowances included in your SIM Plan are for units convertible into calls and texts to standard UK numbers, not international numbers. Our international charges for calling or texting vary depending on (1) where you are, and (2) where the person you are calling or texting is located. The relevant international costs to call or text outside of our Feel At Home destinations are listed below.

The cost of data use abroad (when not in a Feel At Home destination) is set out on page 22 (please note, the 'Bands' are different for data use).

To see the roaming rates you'll be charged when in a specific country:

1. Using the table on this page, **identify the band** that you are going to, and if you are contacting someone in a different country, check which band that destination falls into.
2. Go to the table on the page indicated in the table below to see the international charges for calls and texts for that destination.
3. If you are in the UK and want to call or text a number in a Feel At Home destination, please see page 14.
4. To see the roaming rates for using data abroad, please see page 22.

 **Key things to note.**

Key things to note.

We've set out some of the questions that we often get asked, and their answers below. We've also explained in more detail about your plan, how you can use it in Feel At Home destinations and what we mean by 'All-you-can-eat' as an allowance.

About your plan.

What does my plan include?

- Your SIM plan includes a monthly allowance of voice units, text units and data units that convert automatically on use into voice calls (to standard UK landlines starting 01, 02, 03, and UK mobiles), text messages sent to a standard UK mobile number or data use – whether used within the UK or a Feel At Home destination. It's worth remembering that if you don't use up your allowance in a month, you lose the unused portion, as it doesn't roll over to the next month.
- After your monthly allowance (of whatever type of units) is used up, prices for use outside of your allowance for additional calls or messages are shown on page 5. If your inclusive allowance of voice units runs out during a call, we will charge you for the remainder of the call at the charges published in this guide.

How can I use my voice units?

- Inclusive voice units in any packages or Add-ons are for voice calls made either from the UK or while in a Feel At Home destination to any other standard UK mobile (beginning 07 but excluding certain non-standard numbers – see page 10 for details), UK landlines (beginning 01, 02 and 03) and voicemail (retrieved by calling 123 from your mobile in the UK).

How can I use my text units?

- Inclusive text units are for SMS texts either sent in the UK or sent while in a Feel At Home destination to a UK standard mobile (beginning 07 but excluding certain non-standard numbers – see page 10 for details).
- Text units within a monthly allowance cannot be converted into: text messages sent from the UK or a Feel At Home destination to a non-UK standard mobile number; messages sent whilst abroad in a non-Feel At Home destination; text messages received in non-Feel At Home destinations; photo and/or video messages; or alerts received as part of Three's Alerts services. These services are also excluded from any Add-on allowances for messages.

How can I use my data units?

- The inclusive data units in your package or Add-on can be used to connect to the internet on your phone whether in the UK or a Feel At Home destination.
- You can also use your data units to set up a Personal Hotspot if you want to connect more than one device to the internet at once, when in the UK. You can use any or all of your allowance for this purpose, except if you have All-you-can-eat data, in which case you can use up to 4GB a month of that allowance as a Personal Hotspot.

 **Key things to note.**

What else can't I use my allowances for?

• International calls and messages; calls and messages made and received while abroad to non-UK numbers; premium rate calls and messages; reverse charge messages; message alert services; and directory service calls; calls to 0800/0500/0808 numbers that are not on the Telephone Helplines Association list, non-geographic numbers (starting 087, 084) and special numbers (e.g. 090, 070) are excluded from any monthly Add-on allowances, except if you are in a Feel At Home destination (and this has been explicitly stated within the relevant section of this Price Guide).

What do you mean by All-you-can-eat?

All-you-can-eat data.

If you have All-you-can-eat data units as part of your package or with an Add-on, there are no hidden 'fair use policies' within the UK. If you're in a Feel At Home destination, you can use up to 25,600 data units (which converts into 25 GB of data) each month. All-you-can-eat data units should give you all the access to the internet you would normally need, without worrying about hefty bills. It's worth noting that even if you used your phone for every minute of every day you'd only use, subject to TrafficSense™, around 1,000 GB each month. That's why we've set a usage cap at 1,000GB, in order to identify commercial use of the service, for example, which is not permitted under the Terms for Three Services.

All-you-can-eat texts and minutes.

There's no hidden "fair use policies" with our All-you-can-eat text units or voice units allowances either when in the UK – we just ask that you use this allowance in accordance with our Terms for Three Services – that is, for personal use only, and not for any illegal, commercial or improper purposes. In addition to these All-you-can-eat UK allowances, you also get 5,000 text units and 3,000 voice units to use respectively each month, when in a Feel At Home destination.

Do you breakdown the cost of the units that I get as part of my package anywhere?

Yes – you'll see a breakdown of the exact cost of the units included within your package's allowances on page 2 of your monthly bill in the 'Answering your questions' section titled 'About your allowance's unit costs' – we believe this helps you understand the value you're getting from your package. The number of units each package is comprised of is also set out on page 3 and 4 of this Price Guide.

1 data unit = 1 MB of data

1 voice unit = 1 minute of a call

1 text unit = 1 SMS text message

For example, the unit costs for the [2GB Data 600 Minute Plan](#) is as follows: 3.070p per minute, 0.0074p per text and 0.0050p per megabyte. These aren't charges for going over your allowance, these units are included in your plan. They also don't include, any one-off reductions; discounts; or any Add-on allowances.

We have set out the unit costs for Add-ons on the next page.

Add-on unit costs.

Add-on name	Per Unit Cost (pence)

International messaging.

Messages sent from the UK to international destinations (except to Three UK numbers in a Feel At Home destination), messages sent and received whilst abroad (unless in a Feel At Home destination), photo and video messages and alerts received as part of Three's Alerts services are excluded from any monthly and/or Add-on allowances for messages. Your international messaging function is subject to services arrangements with respective networks abroad.

Can I use my SIM card in anything other than a mobile phone?

No – you can only use your voice SIM in your phone, not other devices (e.g. a dongle, mobile wifi device, laptop, or tablet).

What will I have to pay if I want to cancel my contract?

If you ask to cancel your package before the end of your Minimum Term, you'll be asked to pay a **Cancellation Fee** (see 'What do you charge for other services' on page 23). If you are outside of your Minimum Term and want to cancel your contract, there is no cancellation fee to pay. For more information call Three Customer Services.

Is there anything else I should note?

Can I set up a Call Return?

Yes - you can return a call directly to someone who has left you a message by simply keying # at the end of their message. This is called Call Return (returning a call directly from the voicemail service).

When using Call Return, calls are charged at your standard price plan rates or from any inclusive allocation, as though you had made the call directly. Call returns will be shown separately on your bill.

Call return from voicemail may not be made to certain numbers such as international and premium rate numbers. Any call-barring restrictions you have will also apply. You can only return one call directly from the voicemail service. As soon as you finish the call you will be disconnected and will have to redial into voicemail if you wish to continue listening to your voicemail.

If you divert your incoming calls to another number, we'll charge you for each redirected call. The cost of the redirected call depends on the type of number.

 **Key things to note.**

Charging/billing.

- All calls made by pay monthly SIM customers, (except calls to short code, premium rate numbers and EU roaming calls) are treated as a minimum of one minute. Calls of more than one minute are treated as lasting for their actual duration, with fractions of a second being rounded to the nearest second (this does not apply to some roaming calls, calls to Directory Service and Special Calls).
- This applies whether voice units are being converted into voice minutes or whether calls are being billed separately.
- Each individual charge on your bill is shown with VAT included (where relevant), and is rounded up or down to the nearest tenth of a penny to make it easier to read. This rounding process means that the total charges you see on our bill summary page may not always be identical to the 'Total due by' charge you see on the front page of your bill. Don't worry, this is normal and you're not being overcharged or undercharged. The actual amount you need to pay is the one shown on your bill's front page, next to 'Total due by'.

To request a VAT invoice: customers can request a VAT invoice by calling 333 free from a Three phone, or 0333 300 3333 from any other phone (standard call rate applies) and select the Billing option. Once the request is received, Three will then arrange to send a VAT invoice for the period of time requested by the customer.

First Month Pro-Rated.

Your first month's allowance and charge for your price plan or Add-on will depend on when in the month you join Three or when you decide to select your Add-on. Whenever that is, you can start using your allowance for your price plan or Add-on straight away. We'll work out an appropriate allowance and charge to take you to the end of the first month. After that, you simply pay the standard monthly line rental or Add-on charge for a full month's allowance.

Non-recurring payments.

Three's preferred method of payment is by recurring Direct Debit. Recurring payments have no additional charge.
