Advanced Plan Benefits

We like to do things differently here at Three. Want to use your data, your way? Tired of worrying about your mobile bill – home or away? Go all-inclusive with our Advanced Plans where you'll enjoy:

- +** Using your phone abroad at no extra cost with Feel At Home both in Europe and Around the World. Available in 71 destinations worldwide. Your plan includes a set of allowances of voice, text and data units which you can use in the UK and in all our Feel At Home destinations (some limits apply – see page 20). Where and when you use these is up to you.
- +** Tethering your device and using it on the go (or at home) with Personal Hotspot – you can use all or any of your data allowance to create a personal hotspot within the UK, unless you choose a plan with All-you-can-eat data or have a 100 GB data allowance. In this case, you can use between 2 GB and 30 GB a month as a personal hotspot (how much depends on when your contract started – see page 26). On all new Advanced Plan contracts with All-you-can-eat data or a 100 GB data allowance, you'll now enjoy a 30 GB personal hotspot allowance.
- +** Control your spend by setting your own limits for voice and data to avoid getting that shocking big bill.
- +** Change your plan – temporarily or permanently – when you need to.
- +** Free calls from the UK and our Feel At Home in Europe destinations to Three customer services.
- +** Chat to your mates with Snapchat, watch your favourite shows from Netflix and TV Player and listen to your favourite music on Deezer and SoundCloud without worrying about running out of data. Go Binge is available to our Advanced Plan customers on price plans with 12 GB data or more.

Our Advanced Plans

Our Advanced Plans are available on both Pay Monthly Packages, which include a device and have a minimum term of 24 months and on a SIM Only basis, where you can choose a minimum term of 1 or 12 months. To end your contract, you'll just need to give us 30 days' notice (there may be a Cancellation Fee payable if you're still within your Minimum Term – see page 24).

Whether you're on an Advanced Plan Pay Monthly Package or SIM Only Advanced Plan, you'll get a monthly allowance of voice, text and data units for use within the UK and both our Feel At Home in Europe and Around the World destinations. These convert automatically on use within the UK and in our 71 Feel At Home destinations – how and where you use them is up to you. How this works is set out below.

Three's preferred payment method

New Advanced Plan customers (whether on a Pay Monthly Package or SIM Only plan) can only join on Direct Debit and the above plans' prices include a discount for paying by this efficient means.

Direct Debit is brilliant for you as payment will be taken automatically and your account will not be suspended if you forget to pay. It is also the most efficient method for us. You should maintain your Direct Debit whilst you stay as a pay monthly customer.

You can change your bank details at any time, just let us know. You can choose any of the following given means of payment. Simply allow us to store details and you will remain eligible for the £5 monthly recurring discount. See page 31 for more info.

Add-ons & Changing your Price Plan

With Three's Add-ons, it's easy to customise your plan to give you even more flexibility and value. The Add-ons available to you will depend on your plan and current allowance and are set out in the tables on the following pages.

If you want to increase your allowance on a longer-term basis, you can now change your price plan via your My3 account. A change of price plan may incur a small one-off fee allowing you to use your new increased allowances immediately. You will then be charged your new monthly price from the following month. Changing your price plan will not affect your contract end date. If you've chosen our 100 GB plan, please note that you won't be able to change to another price plan. For existing customers, as our 100 GB plan is currently available on a promotional basis, it will not be available to change plans to.

Charges to Special Numbers & Directory Services

There are certain types of calls in the UK that are not covered by your monthly allowance of voice units. Charges for these calls are shown in the following tables. Please go to [Three.co.uk/nts](https://www.three.co.uk/nts) or call Customer Services for details of specific numbers.

Calls to numbers starting 0800 and 0808 are free for everyone to call and the charge for calls to numbers starting 084, 087, 118 and 09 are split into two elements: an Access Charge (set by us at 45p per minute, with a one-minute minimum charge) and a Service Charge (set by the company you're calling – they'll tell you this).

How much does it cost for calls to Satellite phones?

Calls to satellite numbers cost the same per minute regardless of where in the world you are when making the call (whether from the UK or abroad) or where the satellite phone is physically located. They normally start with the number prefix 0087 or 0088 and cost up to £7.66 per minute.

How much does it cost for Directory Services?

There are a host of directory enquiry services available, all of which have different phone numbers and different charges. These calls do not come out of an allowance of voice units and you'll be charged the rates below to call these.

The table here only shows a fraction of the directory services available (which is changing frequently) – go to [Three.co.uk/nts](https://www.three.co.uk/nts) for the latest details.

Calls made to numbers starting 118 will be split into two elements: an Access Charge (set by us, at 45p per minute, with a 1-minute minimum charge) and a Service Charge (set by the company you're calling – they'll tell you this).

Prices for Three Directory Services (including VAT)

International Roaming, including Feel At Home Using your phone abroad

As an Advanced Plan customer, International Roaming is switched on automatically on your account, so you can use your phone abroad, including in all 71 of our Feel At Home destinations at no extra cost, straight away.

The good news is that International Roaming is not subject to additional charges if you're using your phone to contact a UK number (starting 01, 02, 03 or a standard UK mobile) from any Feel At Home destination. It also won't cost you any extra when in a Feel At Home in Europe destination to make calls to standard landline or mobile numbers in other Feel At Home in Europe destinations (see page 18). However, in destinations not covered by Feel At Home, additional costs will be incurred. How much these are, depend on where you are and where the person you're contacting is.

To help you manage your roaming costs when you're travelling, we'll text you information about call charges and roaming rates for each country you visit.

If you need to contact Three Customer Services while abroad, call +44 7782 333 333 (this call will be charged at your standard roaming rate). Calls made from abroad to your voicemail will also be charged at standard roaming rates. Go to [Three.co.uk/roaming](https://www.three.co.uk/roaming) for more information.

Did you know:

- We've also set up a worldwide data roaming limit of £42.50 to stop you spending too much. If you'd prefer, you can have this limit removed by contacting Three Customer Services.
- Calls made when you're in a non-EU country are normally charged per minute.
- Calls received when you're in a non-EU country normally have a one-minute minimum charge and then are charged by the second.

Is there any other information about Feel At Home that I should know?

- All of our Advanced Plans include a set of allowances, made up of a specified number of units. If you're roaming in one of our Feel At Home Around the World destinations you can use a portion of these allowances each month. For example, with All-you-can-eat data, you can use up to 12 GB each month to get online; with All-you-can-eat texts you can send up to 5,000 texts back to the UK each month from a Feel At Home destination; and if you have 3,000 or more minutes included in your allowance, you can talk for up to 3,000 minutes on calls back to the UK each month. If you exceed your 12 GB monthly data allowance, your data usage may be blocked in our Feel At Home destinations until your next billing period. If you exceed any of these allowances for any two months within a rolling 12-month period we have the right to suspend International Roaming on your account, meaning you will no longer be able to use your device or allowance abroad. Of course, we will let you know in advance if this is likely to happen.
- If you're roaming in one of our Feel At Home in Europe destinations and have a data allowance greater than 13 GB, you can use up to 13 GB of this each month in a Feel At Home in Europe destination. Usage over this, but in excess of this Fair Use Policy, will be subject to a regulated surcharge – this is currently 0.50p/MB except if you are roaming in the following countries in which case it will be 0.41p/MB: Aland Islands, French Guiana, Gibraltar, Guadeloupe, Iceland, Liechtenstein, Martinique, Mayotte, Norway, Réunion and Switzerland.
- Feel At Home is intended for our UK customers who are UK residents or have stable links with the UK (e.g. full-time employment or study in the UK) who are visiting one of the destinations for short periods, like holidays or business trips. It isn't designed for people who live abroad or stay for extended periods. If you roam exclusively in a Feel At Home Around the World destination for any two complete months in a rolling 12-month period, we may suspend International Roaming on your account, meaning you will no longer be able to use your phone or device abroad. Of course, we will let you know in advance if this is likely to happen. If you spend a full month abroad but some of that time is spent in a destination that isn't included in Feel At Home, the restriction won't apply.
- You can't use your phone as a personal hotspot in a Feel At Home destination unless you have an All-you-can-eat package or you've purchased our Data Passport – see page 12 for details.
- To ensure all customers can benefit from Feel At Home in Europe with roaming at no extra cost, we reserve the right to apply a surcharge in case of abusive use. In order to help us to detect possible abuse of Feel At Home in Europe, we may monitor your usage and presence. We'll look at the balance of your roaming and domestic (UK) activity over four months: if you spend the majority of your time abroad and consume more abroad than at home over the four months, we have the right to add a small surcharge to your usage. This surcharge will be capped at a maximum of 3.25p/min, 1.01p/SMS and 0.50p/MB (except if you are roaming in the following countries in which case the surcharges will be 0.41p/MB, 2.70p/min and 0.85p/SMS: Aland Islands, French Guiana, Gibraltar, Guadeloupe, Iceland, Liechtenstein, Martinique, Mayotte, Norway, Réunion and Switzerland). We will cease to apply this surcharge as soon as our data usage and presence monitoring no longer indicates a risk of abuse or anomalous use of Feel at Home in Europe roaming. Before this surcharge is applied, we'll send you an alert message two weeks in advance, giving you an opportunity to modify your roaming behaviour. In the absence of a change we may apply a surcharge for any further roaming use. Any surcharge will cease to be applied when our Feel at Home in Europe monitoring indicates that the majority of your time or usage is spent in the UK.
- You can stream but you will find this is slower than in the UK. If you want to stream at higher speeds, you can choose to purchase our Data Passport (page 12) which will give you an unlimited, unrestricted data allowance to use for these activities.

Key things to note

What about destinations not covered by Feel At Home – how much will it cost to use my phone there?

It's important to remember that the allowances included in your Advanced Plan are for units convertible into calls and texts to standard UK numbers, not international numbers (unless you're calling or texting an international number within our Feel At Home in Europe destinations, while roaming within a Feel At Home in Europe destination). Our international charges for calling or texting vary depending on (1) where you are and (2) where the person you are calling or texting is located. The relevant international costs to call or text outside of our Feel At Home destinations are listed below.

The cost of data use abroad (when not in a Feel At Home destination) is set out below (please note, the 'Bands' are different for data use).

To see the roaming rates you'll be charged when in a specific country, [use the table on page 18](#) to identify the band that the country you're going to falls within and if you are contacting someone in a different country (on an international number), check which band that destination falls into. Then check the tables below.

Internet and data usage abroad.

When you roam onto other international networks where data roaming is available, the charges below will apply (except if you're in a Feel At Home destination – see page 19 for more information).

The speed and availability of Internet access when abroad will depend on a number of factors, including which network you are roaming on and the services they have available – for example, 4G networks may not be available, in which case you may only be able to enjoy 3G speeds. Other factors which may affect the speeds that you'll experience include your distance from the nearest mast, your location in a building, local geography and the type of device you're using. Certain services such as audio and/or video streaming may be slower as a result than in the UK. For the latest information on which countries you can roam in and on which networks, visit Three.co.uk/roaming

Calling & texting abroad from the UK

Your inclusive allowances can't be used to make calls or send messages to international numbers unless you're in a Feel At Home in Europe destination calling or texting an international number in a Feel At Home in Europe destination. If you're calling abroad, the cost will depend on which band the number you are calling falls within (see table on page 18). If you're receiving a call from an international number, when in the UK, you won't be charged to receive that call.

Voice calls made from the UK to an international destination

Where are you calling?	Cost (per minute)
Feel At Home destinations	See page 21
Band 0	46p
Band 1	56.2p (except calls to South Africa, which cost £1.021 per minute)
Band 2	£1.021
Band 3	£1.021
Band 4	Charges vary by country code dialled and / or network

If you're calling abroad regularly, don't forget to check out our Add International Saver on page 12.

If you're sending messages (or making video calls) from the UK to an international number, the cost is the same regardless of where you're messaging or calling:

Charges from the UK to any country	Cost to send (per message) or make a video call (per minute)	Cost to receive

Key things to note

Key things to note

We've set out some of the questions that we often get asked and their answers below.

About your Advanced Plan allowance.

Your Advanced Plan includes a monthly allowance of voice units, text units and data units that convert automatically on use within the UK and in our Feel At Home destinations into voice calls (to standard UK landlines starting 01, 02, 03 and UK mobiles), text messages sent to a standard UK mobile number or data use. Plus, if you're in one of our Feel At Home in Europe destinations, you can also use your voice and text units to respectively call and text standard landline and mobile in Feel At Home in Europe numbers. It's worth remembering that if you don't use up your allowance in a month, you lose the unused portion, as it doesn't roll over to the next month.

After your monthly allowance (of whatever type of units) is used up, prices for use outside of your allowance for additional calls or messages are shown on page 8. If your inclusive allowance of voice units runs out during a call, we will charge you for the remainder of the call at the charges published in this guide.

How can I use my voice Units?

- Inclusive voice units in any packages or Add-ons are for voice calls made either within the UK or while in a Feel At Home destination to any other standard UK mobile (beginning 07 but excluding certain non-standard numbers – see page 14 for details), UK landlines (beginning 01, 02 and 03) and voicemail (retrieved by calling 123 from your mobile in the UK).
- Inclusive voice units in any package or Add-on can also be used when roaming within our Feel At Home in Europe destinations to call standard landline or mobile numbers in that or any other Feel At Home in Europe destination.

How can I use my text Units?

- Inclusive text units are for SMS texts sent within the UK or a Feel At Home destination to a UK standard mobile (beginning 07 but excluding certain non-standard numbers – see page 14 for details) or for SMS texts sent when roaming within a Feel At Home in Europe destination to a standard mobile number from a Feel At Home in Europe destination. You cannot use your inclusive text units to send SMS shortcode messages – see page 9 for details regarding these.
- Text units within a monthly allowance cannot be converted into: text messages sent from the UK or a Feel At Home destination to a non-UK standard mobile number (except for text messages sent within Feel At Home in Europe destinations to an international mobile number from a Feel At Home in Europe destination); messages sent while abroad in a non-Feel At Home destination; text messages received in non-Feel At Home destinations; photo and/or video messages; or alerts received as part of Three's Alerts services. These services are also excluded from any Add-on allowances for messages.

How can I use my data Units?

- The inclusive data units in your package or Add-on can be used to connect to the Internet on your phone whether in the UK or a Feel At Home destination, unless you've chosen an Add-on that specifically states it is for UK use only.
- You can also use your data units to set up a personal hotspot if you want to connect more than one device to the Internet at once, when in the UK. You can use any or all of your allowance for this purpose, except if you have All-you-can-eat data, in which case (depending on when your contract started and which plan you're on) you can use up to the following number of data units each month to create a personal hotspot:

SIM Only Contract – Start Date	Data Units
15 July 2014 – 4 August 2015	4,096 (converts on use to 4 GB)
5 August 2015 – 17 November 2015	8,192 (converts on use to 8 GB)*
18 November 2015 – 30 March 2016	12,288 (converts on use to 12 GB)
31 March 2016 onwards	30,720 (converts on use to 30 GB)
Contract Handset Packages – Start Date	Data Units
18 March 2014 – 28 April 2015	2,048 (converts on use to 2 GB)
29 April 2015 – 2 July 2015	4,096 (converts on use to 4 GB)
3 July 2015 – 6 September 2015	8,192 (converts on use to 8 GB)
7 September 2015 – 30 March 2016	12,288 (converts on use to 12 GB)
31 March 2016 onwards	30,720 (converts on use to 30 GB)

*Except if you signed up to our All-you-can-eat data, 200 minutes SIM plan between these dates, in which case you can use up to 4,096 Data Units (converts on use to 4 GB) each month as a personal hotspot.

What else can't I use my allowances for?

- International calls and messages;
- Calls and messages made and received while abroad to non-UK numbers (unless stated otherwise);
- Premium rate calls and messages (including SMS shortcode messages);
- Reverse charge and messages;
- Message alert services;
- Directory service calls;
- Non-geographic numbers (starting 087, 084) and special numbers (e.g. 090, 070).

Go Binge

Go Binge is available to customers taking our Advanced Plans with a regular data allowance of 12 GB or above. What do you mean by All-you-can-eat?

All-you-can-eat data.

If you have All-you-can-eat data units as part of your package or with an Add-on, there are no hidden 'fair use policies' within the UK. However, if you're in a Feel At Home in Europe destination, you will be subject to our fair use limits meaning you can use up to 13,312 data units (which converts into 13 GB of data) each month. When in a Feel At Home Around the World destination you'll be able to use up to 12 GB of data each month (12,288 data units). All-you-can-eat data units should give you all the access to the Internet you would normally need, without worrying about hefty bills. It's worth noting that even if you used your phone for every minute of every day you'd only use, subject to TrafficSense™, around 1,000 GB each month. That's why we've set a usage cap at 1,000 GB, in order to identify commercial use of the service, for example, which is not permitted under the Terms for Three Services.

All-you-can-eat texts and minutes.

There's no hidden 'fair use policies' with our All-you-can-eat text units or voice units allowances either when in the UK or our Feel At Home in Europe destinations – we just ask that you use this allowance in accordance with our Terms for Three Services – that is, for personal use only and not for any illegal, commercial or improper purposes. In addition to these All-you-can-eat UK and Feel at Home in Europe destination allowances, you also get 5,000 text units and 3,000 voice units to use respectively each month, when in a Feel At Home Around the World destination.

Do you break down the cost of the units that I get as part of my package anywhere?

Yes – you'll see a breakdown of the exact cost of the units included within your package's allowances on page 2 of your monthly bill in the 'Answering your questions' section titled 'About your allowance's unit costs' – we believe this helps you understand the value you're getting from your package. The number of units each package is comprised of is also set out on pages 5–6 of this Price Guide.

- 1 data unit = 1 MB of data
- 1 voice unit = 1 minute of a call
- 1 text unit = 1 SMS text message

For example the unit costs for the SIM 1GB Data 600 Minutes – 12-month plan are as follows: 0.800p per minute, 0.030p per text, 0.361p per megabyte. These aren't charges for going over your allowance, these units are included in your plan. They also don't include any one-off reductions, discounts or any Add-on allowances.

We have set out the unit costs for Add-ons in the table below.

International messaging.

Messages sent from the UK to international destinations, messages sent and received whilst abroad, photo and video messages and alerts received as part of Three's Alerts services are excluded from any monthly and/or Add-on allowances for messages. Your international messaging function is subject to services arrangements with respective networks abroad.

What will I have to pay if I want to cancel my contract?

If you ask to cancel your package before the end of your Minimum Term, you'll be asked to pay a Cancellation Fee (see 'Charges for other services' on page 24). If you are outside of your Minimum Term and want to cancel your contract, there is no Cancellation Fee to pay. For more information call Three Customer Services.

Is there anything else I should note?

Is there a maximum call duration that I should know about?

We may end any calls that you make that are longer than two hours' duration, in order to prevent you from incurring excessive, inadvertent costs. If this does happen and you wish to continue your call, please simply redial.

Key things to note

Can I set up a Call Return?

Yes – you can return a call directly to someone who has left you a message by simply keying # at the end of their message. This is called Call Return (returning a call directly from the voicemail service).

When using Call Return, calls are charged at your standard price plan rates or from any inclusive allocation, as though you had made the call directly. Call Returns will be shown separately on your bill.

Call Return from voicemail may not be made to certain numbers such as international and premium rate numbers. Any call-barring restrictions you have will also apply. You can only return one call directly from the voicemail service. As soon as you finish the call you will be disconnected and will have to redial into voicemail if you wish to continue listening to your voicemail.

If you divert your incoming calls to another number, we'll charge you for each redirected call. The cost of the redirected call depends on the type of number.

Charging/billing.

- All calls (except calls to shortcode, premium rate numbers and EU roaming calls) are treated as a minimum of one minute. Calls of more than one minute are treated as lasting for their actual duration, with fractions of a second being rounded to the nearest second (this does not apply to some roaming calls, calls to Service Numbers and Special Calls).
- This applies whether voice units are being converted into voice minutes or whether calls are being billed separately.
- Calls to Service Numbers (starting 084, 087, 09 and 118) are charged differently from other numbers. The Access Charge element of these calls will be treated as a minimum of one minute. If your call lasts less than one minute, your Access Charge will be rounded up to a duration of one minute. For calls of more than one minute, the Access Charge element is treated as lasting for its actual duration, with fractions of a second being rounded to the nearest second. The Service Charge element is set by the company you're calling and may comprise (1) a price per minute Service Charge; (2) a price per call Service Charge; (3) a price per call Service Charge plus a price per minute Service Charge (which runs from the start of your call); and (4) a price per call Service Charge plus a price per minute Service Charge (which runs from 60 seconds after the call starts). If the Service Charge includes a price per minute Service Charge, this will be treated as lasting its actual duration (except if the first 60 seconds have been excluded), with fractions of a second being rounded to the nearest second. For example, if you make a call to a service number, where the Service Charge is 10p per minute, which is simply charged at a price per minute rate and your call lasts 30 seconds, you'll be charged a total of 50p for this call, as the Access Charge element will be rounded up to a duration of one minute at 45p plus 5p for the 30 seconds of call time for the Service Charge element.
- Each individual charge on your bill is shown with VAT included (where relevant) and is rounded up or down to the nearest tenth of a penny to make it easier to read. This rounding process means that the total charges you see on our bill summary page may not always be identical to the 'Total due by' charge you see on the front page of your bill. Don't worry, this is normal and you're not being overcharged or undercharged. The actual amount you need to pay is the one shown on your bill's front page, next to 'Total due by'.

Spend limits.

With effect from 13 December 2017 we've automatically applied limits to the amount you spend on third party digital content and premium rate calls (including directory enquiries) and messages (including SMS shortcode messages). The spend limits are £40 per single payment transaction and the cumulative sum of £240 for payment transactions made over the course of a calendar month. These limits are set by law and can't be changed. For more information, including confirmation of what types of transactions are affected, visit: [Three.co.uk/spendlimits](https://three.co.uk/spendlimits)

VAT invoices.

These plans are for your personal use only and are not intended for commercial use – this means that if you signed up to one of these plans on or after 18 August 2016, we're afraid we will not be able to issue you with a VAT invoice in relation to this account. If you do need a VAT invoice in relation to your mobile account, please have a look at one of our Business Plans.

If you joined us before 18 August 2016, you may be able to request a VAT invoice subject to a few simple verification checks – please note that Three will only issue a tax invoice on these plans where it is obliged to do so, in accordance with VAT regulations. You can make this request by calling 333 free from a Three phone, or 0333 338 1001 from any other phone (standard call rate applies) and select the Billing option.

First month pro-rated.

Unless otherwise stated, your first month's allowance and charge for your price plan or Add-on will depend on when in the month you join Three or when you decide to select your Add-on. Whenever that is, you can start using your allowance for your price plan or Add-on straight away. We'll work out an appropriate allowance and charge to take you to the end of the first month. After that, you simply pay the standard monthly recurring charge or Add-on charge for a full month's allowance. The exception to this is if you purchase one of our Add Personal Hotspot Add-ons, the first month of which will not be pro-rated. You will simply receive the full monthly allowance and be charged the full amount for that Add-on in the first month of purchase.

Changes to your Monthly Charge

If you choose a 24-month pay monthly Advanced Plan Package, your contract with us includes the right to increase your Monthly Charge (within your Minimum Term) on an annual basis each May, by an amount up to the January Retail Price Index ('RPI') rate. This means that each May, your Monthly Charge will increase by an amount up to the January RPI rate (published each February) unless you're on a SIM plan, in which case your monthly charge will stay the same. If the January RPI rate is negative, there will be no change to your Monthly Charge in the relevant year. An example of how this works can be seen below:

Monthly Charge until April 2019	Monthly Charge from May 2019 to April 2020	Monthly Charge from May 2020 to April 2021
Price A	Price A + an amount up to the January 2019 RPI rate = Price B	Price B + an amount up to the January 2020 RPI rate = Price C
We've set out an example below, showing how this would work, if your Monthly Charge is £25.00 and the January 2019 RPI rate is 2% and the January 2020 RPI rate is 1% (these numbers are for illustrative purposes only):		
£25.00	£25.00 + up to £0.50 (2% of £25.00) = £25.50	£25.50 + up to £0.255 (1% of £25.50) = £25.76

Recurring payment discount.

New customers can only join pay monthly plans on Direct Debit and our plans' prices include a discount for paying by this efficient means. Direct Debit is brilliant for you as payment will be taken automatically and your account will not be suspended if you forget to pay. It is also the most efficient method for us. You should maintain your Direct Debit whilst you stay as a pay monthly customer. You can change your bank details at any time, just let us know.

We cannot prevent you from cancelling your Direct Debit and if you do, you are still required to pay your bills by the due date. We will retain your discount if you give us any of the following given means of payment provided that you simply allow us to store your selected payment method so that we can charge you on your billing date each month. Don't worry, you can swap these details at any time and on multiple occasions. If you do not permit us to store payment details you will lose the recurring payment discount.

You can choose any of the following given means of payment. Simply allow us to store your payment details and you will remain eligible for the £5 monthly recurring discount.

Your Rights – Complaints

Remember, if you're unhappy about any aspect of our services, you should contact Three Customer Services on 333 (free) from your Three phone or 0333 338 1001 from any other phone.

We'll investigate any complaint in accordance with our customer complaints code, after which we'll contact you with the results. A copy of our customer complaints code can be viewed on our website at [Three.co.uk/complaints](https://www.three.co.uk/complaints) or you can request a copy by contacting us on the numbers mentioned above.
