International charges¹⁸

Most Pay Monthly customers, including SIM Only customers and Pay As You Go customers will automatically have international roaming enabled on their account. If you joined us before 22 July 2010 and haven't roamed abroad since, you will need to contact us by calling Three Customer Services (before leaving the UK), so we can activate international roaming for you. If you need to contact Three Customer Services while abroad call +44 778 2333 333 (this call will be charged at your standard roaming rates). Calls made from abroad to your voicemail will also be charged at standard roaming rates.

Please visit Three.co.uk/roaming to see which countries you can roam in and the cost.

Calls made from the UK to anywhere outside the UK normally have a one-minute minimum charge and are then charged by the second¹². When in an EU destination, the minimum charge for making a call is 30 seconds, after which calls are charged by the second. Calls received in an EU destination are charged by the second with no minimum initial charges. When in a non-EU destination, the cost for making a call is normally charged per minute. Calls received when in a non-EU destination have a one-minute minimum charge and are then charged by the second.

To help you manage your roaming costs, we'll text you information about call charges and roaming rates when you're abroad for each destination worldwide. We've also set up a worldwide data roaming limit of £42.50 to stop you spending too much. You will need to contact Three Customer Services if you'd like this limit removed.

To see the **roaming rates you'll be charged for calls and texts**, you'll need to know (1) the Band that the country you're in is in and (2) which Band the country you're trying to contact falls within. Check the table below to find out:

Feel At Home in Europe	Feel At Home Around the World	Band 0	Band 1	Band 2	Band 3	Band 4

Use your phone abroad at no extra cost with Feel At Home¹⁸

Because your allowance of voice, text and data units can be used in the UK and in specified Feel At Home destinations, you can call and text back to the UK and get online without paying a penny more. No worries. Where and when you use your allowance is up to you.

It's also free to receive calls, texts, photo messages and video messages when in a Feel At Home destination.

As a reminder, Feel At Home can be used in the following destinations (we've split these into two bands, based on whether they're within the EU and EEA or not as this will affect some out of allowance charges):

Is there any other information about Feel At Home that I should know?

- Most of our plans include a set of allowances made up of a specified number of units which convert automatically on use into minutes, texts and data. You can use a portion of these allowances in our Feel At Home destinations each month. For example, you can use up to 13 GB of your data allowance each month to get online (up to 12 GB if you're on one of our Pay As You Go plans); with All-you-can-eat texts you can send up to 5,000 SMS texts back to the UK each month from a Feel At Home around the world destination; and if you have 3,000 or more minutes included in your allowance you can talk for up to 3,000 minutes on calls back to the UK each month from our Feel At Home Around the World destinations. There's no limits on how many calls or texts you can make or send either back to the UK or between our Feel At Home in Europe destinations when you are within your allowance. If you exceed your 13 GB or 12 GB fair use monthly data allowance, your data usage may be blocked in our Feel At Home Around the World destinations until your next billing period. If you exceed any of these allowances for any 2 months within a rolling 12-month period we have the right to suspend international roaming on your account, meaning you will no longer be able to use your device or allowance abroad. Of course, we will let you know in advance if this is likely to happen. If you use more than 13 GB/12 GB (depending on plan) of your data allowance in our Feel At Home in Europe destinations you can continue to use your data, but this is subject to a surcharge of 0.50p/MB except if you are roaming in the following countries in which case it will be 0.41p/MB: Aland Islands, French Guiana, Gibraltar, Guadeloupe, Iceland, Liechtenstein, Martinique, Mayotte, Norway, Réunion, Switzerland.
- You cannot use your phone as a Personal Hotspot (this is also called tethering) in a Feel At Home destination – even if you normally do so in the UK using your data allowance or have a personal hotspot allowance or Add-on. If you want to tether in a Feel At Home in Europe destination you can do so by choosing our Data Passport (see page 6).
- You can stream and connect to VPNs or use file-sharing (like peer-to-peer download services), but you will find this is slower and the quality may not be as good as in the UK. If you're connecting more than one device via a mobile Wi-Fi device, your streaming experience may be poor. If you do want faster speeds for streaming and better quality VPN access, you can purchase our Data Passport which provides an unlimited, unrestricted data allowance in the UK and in Feel At Home in Europe destinations (see page 6).
- Feel At Home is intended for our UK customers who are UK residents or have stable links with the UK (e.g., full-time study or employment) who are visiting one of the destinations for short periods, like holidays or business trips. It isn't designed for people who live abroad or stay for extended periods. If you roam exclusively in a Feel At Home around the world destination for any two complete months in a rolling 12-month period, we may suspend international roaming on your account, meaning you will no longer be able to use your phone or device abroad. Of course, we will let you know in advance if this is likely to happen. If you spend a full month abroad but some of that time is spent in a destination that isn't included in Feel At Home, the restriction won't apply.
- To ensure all customers can benefit from Feel At Home in Europe with roaming at no extra cost, we also reserve the right to apply a surcharge in case of abusive use. In order to help us detect possible abuse of Feel At Home in Europe, we may monitor your usage and presence. We'll look at the balance of your roaming and domestic (UK) activity over 4 months: if you spend the majority of your time abroad and consume more abroad than at home over the 4 months, we have the right to add a small surcharge to your usage*. This surcharge will be capped at 3.27p/min, 1.02p/SMS and 0.50p/MB (except if you are roaming in the following countries in which case it will be 0.41p/MB, 2.72p/min and 0.85p/SMS: Aland Islands, French Guiana, Gibraltar, Guadeloupe, Iceland, Liechtenstein, Martinique, Mayotte, Norway, Réunion, Switzerland*).
- Three reserves the right to suspend this service if we reasonably believe that you are using VPN to access illegal or improper content or in contravention of our use requirements set out in our Terms and Conditions of use for Three Services. We reserve the right to extend, withdraw or modify the terms of Feel At Home and/or the destinations of service included at any time. See [Three.co.uk/feelathomeinformation](https://www.three.co.uk/feelathomeinformation) for full details on how this service works and additional details that may be of interest.

If you're in the UK and want to call or text local numbers in Feel At Home destinations, these are charged as follows:

What about destinations not covered by Feel At Home – how much will it cost to use my phone there?

It's important to remember that the allowances included in your Pay Monthly Package are for units convertible into calls and texts to standard UK numbers, not international numbers. Our international charges for calling or texting vary depending on (1) where you are and (2) where the person you are calling or texting is located. The relevant international costs to call or text outside of our Feel At Home destinations are located below.

The cost of data use abroad (when not in a Feel At Home destination) is set out on page 21 (please note, the 'Bands' are different for data use).

To see the roaming rates you'll be charged when in a specific country, use the table on page 17 to identify the band that the country you're going to falls within and if you are contacting someone in a different country (on an international number), check which band that destination falls into. Then check the tables below.

Making and receiving calls when abroad ¹²

*We will cease to apply this surcharge as soon as our data usage and presence monitoring no longer indicates a risk of abuse or anomalous use of Feel At Home in Europe roaming. Before this surcharge is applied, we'll send you an alert message two weeks in advance, giving you an opportunity to modify your roaming behaviour. In the absence of a change we may apply a surcharge for any further roaming use. Any surcharge will cease to be applied when our Feel At Home in Europe monitoring indicates that the majority of your time or usage is spent in the UK.

Internet and data usage abroad.

When you roam onto other international networks where data roaming is available, the charges below will apply (except if you're in a Feel At Home destination – see page 18 for more information).

The speed and availability of Internet access when abroad will depend on a number of factors, including which network you are roaming on and the services they have available – for example, 4G networks may not be available, in which case you may only be able to enjoy 3G speeds. Other factors which may affect the speeds that you'll experience include your distance from the nearest mast, your location in a building, local geography and the type of device you're using. Certain services such as audio and/or video streaming may be slower as a result than in the UK. For the latest information on which countries you can roam in and on which networks, visit Three.co.uk/roaming

Band	Countries	Cost per MB
Data Band 1	Monaco.	10p
Data Band 2	Benin, Botswana, Cyprus (North), India, Ivory Coast, Japan, Panama, Philippines, South Africa, Taiwan, Thailand, Turkey, Yemen.	£3
Data Band 3	Rest of the World excluding Feel At Home destinations – see page 6. Maritime Networks (Ships, Ferries, Cruise Liners), Airlines.	£6

Data charges are for data sent and received and are calculated to the nearest kilobyte.

If you're roaming in a destination where our Data Passport is available (see page 6), you can also choose to buy an unlimited, unrestricted data allowance for a daily charge of £5 which lasts until midnight (UK time) on the day of purchase.

Calling and texting abroad from the UK.

If you're on a Pay Monthly plan which has an inclusive allowance, your inclusive allowances can't be used to make calls or send messages to international numbers. If you're calling abroad, the cost will depend on which band the number you are calling falls within (see table on page 17). If you're receiving a call from an international number, when in the UK, you won't be charged to receive that call.

Calls made from the UK to anywhere outside the UK normally have a 1 minute minimum charge and are then charged by the second¹².

Make international calls for less from the UK, only on Pay As You Go

With no connection fee and no need to sign a contract, we make it easy for you to stay in touch with friends and family around the world. By simply adding a 3-digit prefix in front of an international landline or mobile number, you can call abroad from as little as 1p a minute. Any call charges are per minute and are taken off your normal Pay As You Go credit.

Inclusive allowances.

On our price plans for Pay Monthly customers and most SIM plans (excluding SIM Zero), you may receive a monthly inclusive allowance which can be used in the UK and our Feel At Home destinations up to the limits set out in this Price Guide or at Three.co.uk/feelathome if your plan comes with an All-you-can-eat allowance or a data allowance greater than 12 GB for Pay Monthly customers/ 9 GB for Pay As You Go customers. If you do not use up your allowance in that month, you lose the unused portion of your allowance and it does not roll over to the next month. For Pay As You Go customers, Top-ups have no expiry date and Add-ons are valid for 30 days (excludes certain Internet Add-ons) from the date and time of activation (but you must remember to activate them within 90 days of date of purchase).

Use your SIM in the device category of your price plan.

You can't put your voice SIM into anything other than a phone (e.g. dongle, laptop, tablet). For example, if you're on The One Plan you must use your SIM in a mobile handset only, you can't remove it and place it in a Mobile Broadband dongle.

Want to tether?

If you're a Pay As You Go customer, you can use your top-up credit at 1p/MB to create a Personal Hotspot in the UK and our Feel At Home in Europe destinations (also known as 'tethering'). If you're on The One Plan contract (handset and SIM) we're happy for you to use your data allowance as a Personal Hotspot in the UK and in or Feel At Home in Europe destinations.. This means you can connect your phone to other devices via USB or Wi-Fi to connect to the Internet. If you're not on The One Plan and one of the other plans in this Price Guide, you can get a Mobile Internet Add-on, or a Tethering Add-on. See page 5 for how to get one. If you're in a Feel At Home Around the World destination, you won't be able to use your allowance or Tethering Add-on to tether.

Cancellation and unlock fees.

If you bought your handset from Three, it may be locked to the Three network. We'll unlock this for you at no extra cost. If you want to cancel your contract before the end of your Minimum Term, you'll be asked to pay a Cancellation Fee. For more information, please call Three Customer Services.

Can't find details of your Price Plan?

This price guide includes details of Pay Monthly and SIM plans that a number of our customers are on, if they joined us before 18 March and 15 July 2014, respectively. If you're on one of our older price plans, it may not have been included in this Price Guide – you can call us on 333 (free from your Three phone or 0333 338 1001 from another phone (standard call rates apply)) and we'll be able to provide you with this information. For details of our new price plans, please select the appropriate Price Guide from Three.co.uk/pricguide

All-you-can-eat data – what is it all about?

All-you-can-eat data provides for worry-free Internet use. Even if you used your phone for every minute of every day you could only use, subject to TrafficSense™, around 1000GB each month. A usage cap has been set at a 1000 GB in order for example to identify commercial use of the service, which is not permitted under the Terms for Three Services. All-you-can-eat data is part of our Ultimate Internet Plan, The One Plan and our All-in-one 35 Add-on Pay As You Go. It's also part of some Talk and Text plans. It gives you all the Internet use you need when you're in the UK without the fear of 'bill shock'. With All-you-can-eatdata – you can even use up to 13 GB a month in our Feel At Home in Europe destinations and 12 GB in our Feel At Home Around the World destinations. For international data roaming costs, when not in a Feel At Home destination, please visit the roaming section of our website or page 21 in this Price Guide.

Footnotes.

1. If your package includes a set of allowances, it's made up of a number of units which automatically convert into voice minutes, texts or data when you use your device to make a call, send a text or use data. A unit means either one minute of calls, one text or one megabyte of data. To help you understand the value you're getting from your plan, you'll see a breakdown of the exact cost of the units included within your allowances on page 2 of your monthly bill in the 'Answering Your Questions' section titled 'About Your Allowance's Unit Costs'. An example of the unit costs for a tariff such as The One Plan is as follows: 0.7p per minute, 0.08p per text and 0.008p per megabyte. These aren't charges for going over your allowance, these units are included in your plan. They also don't include any one-off reductions, discounts or any 30-day or rolling short-term Add-on allowances – the unit costs for short-term Add-on allowances are shown in the table on page 31. If any of your allowances are All-you-can-eat, for the purposes of calculating a price per unit for you on your bill, we treat them as being units entitling you to either 3,000 minutes, 5,000 texts or 25 GB of data, so that we can show a unit cost. If any of your allowance units can be used for two different things, like minutes and texts, we base the unit costs on you using half of your allowance on each type. For example, if you have 500 allowance units that you can choose to use as either minutes or texts, we base the unit costs on you using 250 texts and 250 minutes. Inclusive voice minutes in any price plans or Add-ons are for voice calls made either from the UK or while in a Feel At Home country to any other standard UK mobile (beginning 07 but excluding certain numbers – see page 25 for details) landline (beginning 01, 02 and 03) and voicemail (retrieved by calling 123 from your mobile in the UK) or for calls to standard landlines or mobile numbers made between Feel At Home in Europe destinations. Inclusive texts are texts either sent in the UK or sent while in a Feel At Home country to a UK standard mobile (beginning 07 but excluding certain numbers – see page 25 for details) or to a standard mobile number from a Feel At Home in Europe destination, if sent from the same or another Feel At Home in Europe destination. Inclusive video minutes on video pack with mobile are for video calls made from the UK or in a Feel At Home country to other Three UK mobiles. No rollover of monthly allowance to next month for Pay Monthly customers. Pay As You Go Top-up vouchers have no expiry date once activated (vouchers must be activated within 90 days of purchase). Pay As You Go Add-ons are valid for 30 days from date and time of activation, apart from Internet Daily, which lasts for 24 hours from activation and Internet Weekly, which lasts

for seven days from activation. After monthly or Top-up allowance is used up, prices for additional use are shown in our service prices tables at the front of this guide (page 11 for Business customers and page 15 for Pay As You Go customers). If your inclusive allowance runs out during a call, we will charge you for the remainder of the call at the charges published in this guide. International calls and messages not covered by Feel At Home, calls and messages made and received whilst abroad in non-Feel At Home destinations, premium rate calls and messages, reverse charge messages not covered by Feel At Home, message alert services and directory service calls, calls to numbers that are not on the THA list, non-geographic numbers (087, 084) and special numbers (eg 090, 070) are excluded from any monthly and Top-up voice and messaging allowances. See pages 25 and 26 for details of these charges. You can return a call directly to someone who has left you a message by simply keying # at the end of their message. This is called Call Return (returning a call directly from the voicemail service). When using Call Return, calls are charged at your standard price plan rates or from any inclusive allocation, as though you had made the call directly. Call Returns will be shown separately on your bill. Call Return from voicemail may not be made to certain numbers such as international and premium rate numbers. Any call-barring restrictions you have will also apply. You can only return one call directly from the voicemail service. As soon as you finish the call you will be disconnected and will have to redial into voicemail if you wish to continue listening to your voicemail. If you divert your incoming calls to another number, we'll charge you for each redirected call. The cost of the redirected call depends on your price plan and type of number.

2. Monthly allowances for photo and video messages (if any) only apply to messages within the UK, except if you are in a Feel At Home country in which case, your monthly allowances for photo and video messages will also apply. Messages sent from the UK to international destinations, messages sent and received whilst abroad, photo and video messages and alerts received as part of Three's Alerts services are excluded from any monthly Top-up and Add-on allowances for messages.

3. Each text/photo/video message can accommodate 160 characters. Some handsets allow for more, these will be divided and sent in numerous messages (depending upon length). Each message will be deducted from your Top-up, Add-on or monthly allowance (if any) or charged at standard rates. When you send messages to

several recipients at the same time you will be charged separately for each recipient. Messages sent to a SMS short code (usually 5 or 6 digits in length, starting with a 6, 7 or 8) are a type of Premium Rate Service and will not come out of any inclusive or Add-on allowance. You will need to check the terms of the promoter of the service for the cost to send an SMS short code.

4. Monthly allowance is applied as a discount against spend on content usage. Excludes certain short code services and third party ringtone services charges via SMS and Add-on purchase. Service limitations apply.

5. Assumes use of Three USB modem, PC software dependent.

6. Only one of each Add-on is allowed per account, per month. Pay As You Go customers can purchase more than one Internet Daily Add-on per month. There is no rollover to the next month for any Add-on. Three reserves the right to suspend, modify or withdraw Add-ons, without notice, at any time. For Pay Monthly customers, each Add-on has one month Minimum Term when purchased except for (i) Add Text with Laptop, which has a Minimum Term of 18 or 24 months, (ii) Video Pack with mobile Add-ons, which have an 18-month Minimum Term and (iii) most business Add-ons (except Add Internet Max, Add International Call Saver and 3Cover, which all have the same Minimum Term as your underlying package). For Pay As You Go customers, Top-ups must be activated via My3 or by calling 444 within 90 days of purchase. Once activated Top-ups have no expiry date.

For Business Share plans, Minimum Term Add-on allowance is only available to individual sharer member purchasing Add-on (not all members registered on Business Share Plan).

7. Usage for Add-ons is unlimited for Add Video Pack (excluding Mobile TV, subscription services, Music, Tunes & Pix, Restricted, Buy & Multiplayer games, Hot Candy, Pics & Flics, all short code content and certain specific content). Add TV Channels excludes Adult TV services, TV series Passes, Mobiv and individual clips from TV shows. Handset dependent.

8. International messaging function is subject to services arrangements with respective networks abroad. Calls and messages to these numbers are excluded from any inclusive allowance on all price plans on Pay Monthly and Pay As You Go except as stated as part of Feel At Home. Premium rate short code text messages sent while abroad are charged

at standard roaming SMS charge plus short code charges.

9. Not used.

10. Cancellation fee: Pay Monthly customers only – there is no cancellation fee if you wish to cancel after your Minimum Term has finished.

11. Monthly Business choice allowance is a total allowance to share between all members registered on the same Business Share tariff. If additional members join a Business Share tariff during the contractual Minimum Term, the Access Charge will carry on until the end of the last new member's contract but all existing sharers' Minimum Terms will remain unchanged. Each member has their own Minimum Term contract which commences on the day that member signs up to the Business Share Plan and is not related to other sharers' Minimum Term who join the plan at a later date. The Access Charge is payable in addition to any Member Fee from the date the first member joins the Business Share Plan until the last members (to join the Business Share Plan) Minimum Term expires. The access fee and each member's monthly fee makes up your monthly recurring charge for the purpose of the Cancellation Fee.

12. Charging/Billing. Pay Monthly – All calls made by Pay Monthly customers (except calls to short code, premium rate numbers and calls to Service Numbers) are initially rounded to the first minute and are billed per second thereafter. After the first minute for Pay Monthly customers, calls are charged by the second, except some international roaming calls, calls to some Service Numbers and Special Calls. The call duration will be mathematically rounded to the nearest second.

Calls to Service Numbers (starting 084, 087, 09 and 118) are charged differently, with the total cost split into an Access Charge and a Service Charge. The Access Charge element of these calls, will be treated as a minimum of one minute. If your call lasts less than one minute, your Access Charge will be rounded up to a duration of one minute. For calls of more than one minute, the Access Charge element is treated as lasting for its actual duration, with fractions of a second being rounded to the nearest second. The Service Charge element is set by the company you're calling and may comprise (1) a price per minute Service Charge; (2) a price per call Service Charge; (3) a price per call Service Charge plus a price per minute Service Charge (which runs from the start of your call); and (4) a price per call Service Charge plus a price per minute Service Charge (which runs from 60 seconds

after the call starts). If the Service Charge includes a price per minute Service Charge, this will be treated as lasting its actual duration (except if the first 60 seconds have been excluded), with fractions of a second being rounded to the nearest second. For example, if you make a call to a service number, where the Service Charge is 10p per minute, which is simply charged at a price per minute rate and your call lasts 30 seconds, you'll be charged a total of 30p for this call, as the Access Charge element will be rounded up to a duration of one minute at 45p plus 5p for the 30 seconds of call time for the Service Charge element.

13. Spend Limits - With effect from 13 December 2017 we'll automatically apply limits to the amount you spend on third party digital content and premium rate calls (including directory enquiries) and messages (including SMS shortcode messages). The spend limits are £40 per single payment transaction and the cumulative sum of £240 for payment transactions made over the course of a billing month. These limits are set by law and can't be changed. For more information, including confirmation of what types of transactions are affected, visit: Three.co.uk/spendlimits.

Each individual charge on your bill is shown with VAT included (where relevant) and is rounded up or down to the nearest tenth of a penny to make it easier to read. This rounding process means that the total charges you see on our bill summary page may not always be identical to the 'Total due by' charge you see on the front page of your bill. Don't worry, this is normal and you're not being overcharged or undercharged. The actual amount you need to pay is the one shown on your bill's front page, next to 'Total due by'.

To request a VAT invoice: if you're on one of our Business Plans, you will automatically be issued with a bill that can be used for VAT purposes. For all other customers on the plans within this Price Guide, you can request a VAT invoice by calling 333 free from a Three phone, or 0333 338 1001 from any other phone (standard call rate applies) and select the Billing option. Three will only issue a tax invoice where it is obliged to do so following a few simple verification checks.

First Month pro-rated. Unless otherwise stated, your first month's allowance and charge for your price plan or Add-on will depend on when in the month you join Three or when you decide to select your Add-on. Whenever that is, you can start using your allowance for your price plan or Add-on straight away. We'll work out an appropriate allowance and charge to take you to the end of the first month. After that, you simply pay the standard monthly line rental or Add-on charge for a full month's allowance. The exception to this is if you purchase one of our Add Personal Hotspot Add-ons, the first month of which will not be pro-rated. You will simply receive the full monthly allowance and be charged the full amount for that Add-on in the first month of purchase.

The allowance can also be used to call standard landlines in Australia, Austria, Belgium, Denmark, France, Germany, Italy, Japan, Luxembourg, Malaysia, The Netherlands, New Zealand, Norway, Poland, Portugal, Republic of Ireland, South Korea, Spain, Sweden, Switzerland and Taiwan from the UK.

Video and fax calls are excluded. There is no rollover to the next month. Excludes whilst roaming abroad.

Your first month's Add-on charge and allowance (where applicable) may be pro-rated.

15. Inclusive GB allowances within Mobile Broadband Ready to go Kits are valid for up to: (i) 3 months (for 3 GB kit), (ii) 12 months (for 12 GB kit) or (iii) 24 months (for 24 GB kit) from the date of activation. Once your Mobile Broadband Ready to go Kit GB allowance is reached or expires, an additional Mobile Broadband Add-on must be purchased. Add-ons last for 30 days once activated (excludes Mobile Broadband Ready to go Kit allowance). Activation starts as soon as you have converted a Top-up. Outside of your Add-on allowance data usage will be charged at £1 per MB. Charged by the byte. Mobile Broadband is compatible with Windows 2000, XP and Vista operating systems and Mac OS (may require additional drivers). Maximum speeds of up to 2.8Mbps on Three's HSDPA network.

16. Add Text with Laptop. All Add Text with Laptop Add-ons have a Minimum Term of 18 or 24 months and can only be purchased with Broadband 5 GB, Broadband Lite or Broadband 15 GB plans (on an 18 or 24-month Minimum Term contract) direct from Three or via selected Three authorised retailers. Inclusive texts are texts sent in the UK from laptop to standard UK mobiles. Laptop supplied by Three (in respect of Add-ons purchased via Three) or from authorised Three retailer (in respect of Add-ons purchased via an authorised Three retailer) at no additional charge.

17. Three Wireless Modem is available as a package with a bundle of text messages which can be sent from a PC. The Wireless Modem is also available on its own in some Three retail channels from £39.99 depending upon the price plan. Alternatively, you could buy an 'Add-Text with Device' Add-on and get this whole package from only £2 per month as well as your chargeable data plan (minimum 18-month term contract), where the Wireless Modem is essentially included at no extra charge with a text bundle. Inclusive texts are texts sent from a compatible PC in the UK, to UK mobiles using a text messaging application on your PC. You need to download the software for the text message application (included with the Wireless Modem) and this currently works with Windows XP or Vista. The text messaging application currently

doesn't work with Mac operating systems, but it can be used for Mobile Wi-Fi.

18. Three reserves the right to extend, withdraw or modify the terms of Feel At Home and/or the destinations included at any time. If your plan, or Add-on, allowance comes with a data allowance greater than 13 GB (for Pay Monthly customers) or 12 GB (for Pay As You Go customers), your data use while abroad in a Feel At Home in Europe destination is limited to 13 GB of data (12 GB on our Pay As You Go plans). Use over this in our Feel At Home in Europe destinations is subject to a surcharge of 0.50p/MB (if you're in Aland Islands, French Guiana, Gibraltar, Guadeloupe, Iceland, Liechtenstein, Martinique, Mayotte, Norway, Réunion, Switzerland your surcharge will be 0.41p/MB) while use over this in our Feel At Home Around the World destinations is not permitted. In addition, customers cannot use their smartphone as a modem to connect other devices such as laptops and tablets – also known as 'tethering', whilst in a Feel At Home destination unless they are in a Feel At Home in Europe destination and purchase a data passport. Customers may be able to (i) stream; and (ii) connect over a virtual private network (VPN), while in a Feel At Home destination, however, both browsing and streaming may be slower than in the UK, as will peer-to-peer file sharing during peak times. Three reserves the right to suspend this service if we reasonably believe that the customer is using VPN for accessing illegal or improper content or in contravention of our use requirements set out in our terms and conditions.

19. Recurring Payment Discount. New customers can only join pay monthly plans on Direct Debit and our plans' prices include a discount for paying by this efficient means. Direct Debit is brilliant for you as payment will be taken automatically and your account will not be suspended if you forget to pay. It is also the most efficient method for us. You should maintain your Direct Debit whilst you stay as a Pay Monthly customer. You can change your bank details at any time, just let us know.

We cannot prevent you from cancelling your Direct Debit and if you do, you are still required to pay your bills by the due date. We will retain your discount if you give us any of the following given means of payment provided that you simply allow us to store your selected payment method so that we can charge you on your billing date each month. Don't worry, you can swap these details at any time and on multiple occasions. If you do not permit us to store payment details you will lose the recurring payment discount.

You can choose any of the following given means of payment. Simply allow us to store details and you will remain eligible for the £5 monthly recurring discount.
