The limits are set under the Payment Services Regulations at £40 per single transaction and a cumulative limit of £240 per month.

Three has also set a **Worldwide data roaming limit** of £45 per month to help you control your spend whilst roaming. Access to emergency organisations and caller location information

If you use Three's Wi-Fi calling service to call 999 in the UK, please note that a call may be interrupted, or end, if you have a power cut or your internet connection fails. If you are having problems connecting with Wi-Fi, you may wish to use a mobile or fixed network connection.

Keeping your Three account information updated (i.e. your current home address / address where you plan to use Wi-Fi calling services) will allow us to provide support should an emergency occur. Please note, you may still be asked to confirm, or provide, your location when making an emergency call.

Calls to the Emergency Services cannot be made using Skype (or certain other voice over IP services). To contact the Emergency Services, please use a standard voice call from your device.

Calls to the Emergency Services from outside the UK, can be made by calling "112" or using the emergency services number for the area you are visiting. ("112" is recognised by most mobile operators worldwide.) Please note, neither your phone number nor location data will be transmitted to the emergency services in these circumstances.

Please note, when using a tablet, your Location Data may not be transmitted to the emergency services in these circumstances.

If you are using a device that operates on Android operating system, 2.3 and above, please note that on calling 999 or 112, while in the UK and connected via the Three Network, your Location Data may be automatically transmitted to the emergency services to help them locate you in an emergency.

Should you prefer to contact the Emergency Services by text message, the Emergency SMS service lets you send a text to the UK emergency services. Your message will be directed to the service you need, whether it is the Police, Ambulance, Fire Service, or Coastguard. It is important to remember that you need to register your phone number first. Text "Register" to 999 before trying to use the service. You will get a confirmation text when you are successfully registered. To find out more, please visit three.co.uk/accessibility.
