

Three Essential plan roaming charges in Feel At Home destinations

On our Essential plans, how much it'll cost you to use your phone in our Feel At Home destinations depends on (1) where you are, and (2) where the person you are contacting is. This is because each country falls into a "band" that determines how much you'll pay to use your phone there or to contact someone in the same or a different band.

Which Band is this in?	Where are you?	What do you want to do?
