Unbeatable Pay As You Go rates for data

Use these quick links to easily navigate to the section you want.

For mobile phones.

With Three, you don't have to spend more than you need to on things like bundles and extras to know that you're getting great value. At just 3p per minute, 2p per text and 1p per MB of data, our standard Pay As You Go rates are considerably lower than our competitors'. Better yet, these amazingly low rates don't expire after 30 days. If you do want a bundle of minutes, texts and data though, which you can use in the UK and our Feel At Home destinations, you can use your top-up to get an Add-on. Easy. Say hello to Pay As You Go the way it should be.

Can't find your details here? If you're on one of our older pay as you go tariffs, you can call us on 333 (free) from your Three phone or 0333 338 1001 from any other phone (standard call rate applies) and we'll be able to give you this information.

Please note: The customer terms will take precedence if there is any discrepancy with this publication. In the event of a discrepancy between this publication and information provided on [Three.co.uk](https://www.three.co.uk), other than the customer Terms for Service, this publication will take precedence.

Top-ups.

To get credit on your Pay As You Go account, you just need to top-up. Once activated, top-ups never expire. Plus you get 150MB data free for internet usage every time you top-up. This is applied straight away and lasts for 30 days.

Your My3 account is the easiest and most convenient way to top-up. Once you have set it up, simply register your credit or debit card and you'll be able to top-up whenever you like. Plus with My3 you can see exactly how you are using your credit or any allowance.

There are other ways to top-up:

- At the shops whenever you see the top-up sign – call 444 from your Three phone to activate your top-up voucher. This includes all Three stores.
- At thousands of ATMs across the UK.

You can find out more on how to top-up at [Three.co.uk/topup](https://www.three.co.uk/topup)

Our great basic rates for using your phone.

	Per minute/message/MB
Calls to standard UK landlines (starting 01, 02, 03), UK mobiles (any network) and your Three voicemail	3p
UK SMS Text messages (excluding SMS Short codes)	2p
UK Mobile data	1p
UK Picture messages	40p
UK Video message	40p

All calls made (except calls to short code, EU Roaming calls and the service charge element of calls to premium rate numbers), including the access charge element of calls to service numbers starting 084, 087, 09 and 118 (see page 25 for more info on these numbers), are rounded up to the nearest minute and are charged by the minute.

A few things to remember

- Each text/photo/video message can accommodate up to 160 characters. Some phones allow for more and these will be divided and sent in numerous messages (depending upon length). These will be deducted from any Add-on allowance or charged individually at our standard rates.
- When you send messages to several recipients at the same time you will be charged separately for each recipient.
- Call Return calls (when you return a call directly to someone who has left you a voicemail message by keying # at the end of their message) are charged at your standard rates or deducted from any Add-on allowance, as if you had made the call directly. Any call-barring restrictions you have will also apply.
- You can only return one call directly from the voicemail service. As soon as you finish the call you will be disconnected and will have to redial into voicemail if you wish to continue listening to your voicemail.
- If you divert your incoming calls to another number, we'll charge you for each redirected call. The cost of the redirected call depends on the type of number you're calling.
- We may end any calls that you make that are longer than 2 hours' duration, in order to prevent you from incurring excessive, inadvertent costs. If this does happen, and you wish to continue your call, please simply redial.
- Using Pay As You Go Data to create a personal hotspot (this is also called 'tethering') is not allowed. If you need to do this, we suggest you consider one of our SIM plans instead.

More about our Add-ons

■ How long do Add-ons last?

Add-ons are valid for 30 days from the date and time you activate it, apart from Internet Daily which lasts for 24 hours. Add-ons need to be activated within 90 days of purchase.

■ What happens to any remaining allowance when my Add-on has expired?

Once an Add-on expires, any unused allowance of units will be lost and can't be rolled over to another Add-on.

■ Can I cancel an Add-on?

Once an Add-on has been activated it can't be cancelled.

■ Can I buy more than one Add-on at a time?

Generally, only one of each Add-on can be active on your account at any one time, but you can buy more than one Internet Daily Add-on per month.

■ What calls do Add-ons cover?

Your Add-on voice units allowance can be used for calls to standard UK landlines (starting 01, 02, 03), UK mobiles (any network) and your Three voicemail, whether you're in the UK or one of our Feel At Home destinations. But to allow you to make other kinds of calls we suggest you keep your account topped up with some extra credit. These calls could include:

- All other International calls.
 - Using your phone abroad, while roaming (except in a Feel At Home destination, when you've got an Add-on allowance).
 - Calls to a Special Number, such as 0845/0870 (see page 24 for more information on these).
- The cost of all other calls will be taken from your Add-on allowance.

■ What happens if my Add-on expires during a call?

If your Add-on allowance expires during a call, we'll charge you for the remainder of the call at our standard rates.

■ What texts do Add-ons cover?

Your Add-on text unit allowance can't be used for messages sent abroad from the UK, messages sent and received whilst abroad (unless in a Feel At Home destination), photo and video messages or for messages to a shortcode service e.g. to donate money to a charity.

■ Can I use my Add-on's data allowance to create a personal hotspot?

Using data on Pay As You Go to create a personal hotspot (also known as 'tethering') is not allowed. If you need to do this, we suggest you consider one of our SIM plans instead.

■ How do I find out more about converting a top-up to an Add-on?

You can find out how to convert a top-up to an Add-on [here](#) or go to [Three.co.uk/support/top-up](https://three.co.uk/support/top-up)

How does All-you-can-eat data work?

■ All-you-can-eat data (which you can get with our All-in-One 25 Add-on) gives you all the internet use you need when you're in the UK without the fear of 'bill shock' and up to 12GB (12,288 data units) to use in our Feel At Home destinations (converts into 12GB of data).

■ There are no hidden 'fair use policies' but we've set a usage cap at 1000GB, just to be sure no one abuses the service. But even if you used your phone for every minute of every day you could only use, subject to TrafficSense™, around 1000GB each month.

■ You can find out more about TrafficSense™ on our website.

See page 13 for international data roaming bands and charges.

To help you manage your roaming costs when you're travelling, we'll text you information about call charges and roaming rates for each country you visit. If you need to contact Three Customer Services while abroad call +44 7782 333 333 (this call will be charged at your standard roaming rate). Calls made from abroad to your voicemail will also be charged at standard roaming rates. Go to **Three.co.uk/roaming** for more information.

Did you know:

- Calls made when you're in a non-EU country are normally charged per minute
- Calls received when you're in a non-EU country normally have a one-minute minimum charge and are then charged by the second
- When you're roaming in the EU, the minimum charge for a call is for 30 seconds, after which calls are charged by the second
- Calls received in the EU are charged by the second with no minimum initial charges – unless you're in an EU-Feel At Home destination in which case it's free to receive a call.

Feel At Home – use your phone abroad at no extra cost.

Simply buy an Add-on with an allowance of voice, texts and/or data units to enjoy Feel At Home in 42 destinations around the world, with more to come.

It's also free to receive calls, texts, photo messages and video messages in our Feel At Home destinations.

How Feel At Home works.

To fully enjoy Feel At Home on Pay As You Go, all you need to do is convert your top-up credit into an Add-on to get an allowance of voice, text or data units (depending on Add-on chosen), which may be used either in the UK or in our Feel At Home destinations (we recommend one of our 'All in One' Add-ons to get an allowance of voice, text and data units). You can then use the allowance in the UK and any Feel At Home destination to call and text the UK, and use the internet, just like you would back home.

As a reminder, Feel At Home can be used in the following destinations (we've split these into two bands, based on whether they're within the EU or not as this will affect some out of allowance charges if you run out of your Add-on allowance or you don't have an Add-on):

Feel At Home Band 1	Feel At Home Band 2
Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Isle of Man, Italy (inc. Vatican City), Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal (inc. The Azores & Madeira), Romania, Slovakia, Slovenia, Spain, Sweden	Australia, Channel Islands (inc. Jersey & Guernsey), Gibraltar, Hong Kong, Iceland, Indonesia, Israel, Liechtenstein, Macau, New Zealand, Norway, Sri Lanka, Switzerland, USA (United States of America)

Out of allowance charges when in a Feel At Home destination

If you use up all of your Add-on's allowances when in a Feel At Home destination or don't have an Add-on, you'll be charged for additional use at the 'out of allowance' rates below:

		Where are you calling or messaging?		
		Back to the UK & to selected European countries ⁹	To any other country	Cost to Receive
Where are you calling, texting or getting online?	Call charges (per minute)			
	Feel At Home Band 1	3.9p	£1.40	Free
	Feel At Home Band 2	3.3p	£1.40	Free
	SMS charges (per message)			
	Feel At Home Band 1	1.6p	1.6p	Free
	Feel At Home Band 2	1.3p	1.3p	Free
	Internet data (per MB)			
	Feel At Home Band 1	3.9p		N/A
	Feel At Home Band 2	3.3p		N/A

⁹The selected European countries are: Austria, Belgium, Bulgaria, Croatia, Republic of Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy (inc.Vatican City), Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the UK.

Photo messages, video messages, video calls and calls to non-geographic numbers (e.g. starting +4484, +4487, +449, +44118) don't form part of your allowance; therefore the following charges will apply when in a Feel At Home destination (regardless of which country you are calling or messaging):

	Cost to make call / send message	Received
Photo message (per message)	40p	Free
Video message (per message)	40p	Free
Video call (per minute)	Up to £2.042 (to any number)	Up to £1.54
Non-geographic calls (per minute)	Up to £1.40	N/A

Prices quoted above include VAT, where applicable.

Calls, texts and data used outside of the EU are not subject to VAT, except Monaco and Isle of Man.

What other useful information is there for using Feel At Home?

Everything you may need to know about Feel At Home can be found at Three.co.uk/feelathome but some key bits of information can be found below:

- As we've said, if you buy an Add-On you can get an allowance of voice, text and/or data units (depending on the Add-On chosen) which you can use in the UK or our Feel At Home destinations. You can use a portion of these allowances in our Feel At Home destinations each month. For example, with All-you-can-eat data, you can use up to 12GB each month to get online; with All-you-can-eat texts you can send up to 5,000 texts back to the UK each month from a Feel At Home destination; and if you have 3,000 or more minutes included in your allowance you can talk for up to 3,000 minutes on calls back to the UK each month.
- If you exceed your 12GB monthly data allowance, your data usage may be blocked in our Feel At Home destinations until your next billing period. If you exceed any of these allowances for any 2 months within a rolling 12 month period we have the right to suspend international roaming on your account, meaning you will no longer be able to use your device or allowance abroad. Of course, we will let you know in advance if this is likely to happen.
- You can't use your data allowance to create a personal hotspot (this is also called tethering) in a Feel At Home destination.
- We restrict your ability in a Feel At Home destination to use your data allowance for file-sharing (like peer to peer download services) and using certain sites to download or share large files. This is so that we can manage demand from overseas and ensure that everyone can use the service.
- You should be able to stream and connect to VPNs, but you will find this is slower and the quality will not be as good as in the UK.
- For example, we don't recommend streaming TV programmes and films. If you're connecting more than one device via a mobile Wi-Fi device, your streaming experience will be poorer still.
- Feel At Home is intended for our UK customers who are visiting one of the destinations for short trips, like holidays or business trips. It isn't made for people who live abroad or stay there for an extended period of time. If you use your allowances exclusively in a Feel At Home destination for any 2 complete months in a rolling 12 month period, we may suspend international roaming on your account, meaning you will no longer be able to use your phone or device abroad. Of course, we will let you know in advance if this is likely to happen. If you spend a full month abroad but some of that time is spent in a destination that isn't included in Feel At Home, the restriction won't apply.
- You'll only be charged to call or message someone when they're in a Feel At Home destination if they don't have a UK-number. How much this will cost you is set out below.
- Although not conditional, we advise Three customers to top up their account and buy an Add-on before leaving the UK - this is to ensure that our systems don't inadvertently identify your account as in breach of our fair use policies. Feel at Home is designed for Three customers to enjoy their allowances both at home and in our Feel At Home destinations. As such, use of a SIM card exclusively to receive inbound calls in a specific Feel At Home destination may result in suspension of that SIM card. Our systems are designed to identify this automatically. If you believe that your account may have incorrectly been suspended because of this, please call +44 7782 333 333.

What about destinations not covered by Feel At Home – how much will it cost to use my phone there?

These are our standard charges for using your phone abroad. Our international charges for calling or texting depend upon where you are and where the number of the person you are calling or texting is located. These tables don't include the charges for using data (internet) abroad – for these, please see page 13.

To see the roaming rates you'll be charged when in a specific country, [use the table on page 7](#) to identify the band that the country you're going to falls within, and if you are contacting someone in a different country (on an international number), check which band that destination falls into. Then check the tables below.

Internet and data usage abroad.

When you roam onto other international networks where data roaming is available, the charges below will apply. However if you're in a Feel At Home destination, and have converted part of your top-up to an Add-on, you can use your allowance to call and text the UK and use your data without paying a penny more. See page 7 for more information about Feel At Home.

The speed and availability of internet access when abroad will depend on a number of factors, including which network you are roaming on and the services they have available – for example, 4G networks may not be available, in which case you may only be able to enjoy 3G speeds. Other factors which may affect the speeds that you'll experience include your distance from the nearest mast, your location in a building, local geography, and the type of device you're using. Certain services such as audio and/or video streaming may be slower as a result than in the UK. For the latest information on which countries you can roam in, and on which networks, visit [Three.co.uk/roaming](https://three.co.uk/roaming)

Band	Countries	Cost per MB
Data Band 1 (EU & selected European countries)	Monaco	3.9p
Data Band 1a (EU & selected European countries non-VAT)	French Guiana, Guadeloupe, Martinique, Réunion, San Marino, French West Indies	3.3p
Data Band 2	Benin, Botswana, Cyprus (North), India, Ivory Coast, Japan, Panama, Philippines, Puerto Rico, South Africa, Taiwan, Thailand, Turkey, Yemen	£3
Data Band 3	Rest of the World excluding Feel At Home destinations – see page 6. Maritime Networks (Ships, Ferries, Cruise Liners), Airlines	£6

Data charges are for data sent and received and are calculated to the nearest kilobyte.
VAT does not apply to data used in countries outside the EU except Monaco and Isle of Man.

Calls, data and fax to other Special Numbers.

As part of UK Calling, from 1 July 2015, calls to numbers starting 0800 and 0808 are free and calls to numbers starting 084, 087, 09 and 118 are now split into two elements: an Access Charge (which we set, at 45p per minute and is charged by the minute) and a Service Charge (which is set by the company you're calling – they'll tell you this). For example, if you call a number starting 084, 087, 09 or 118, and your call lasts for 1 minute and 30 seconds, you'll pay £0.90 for the Access Charge element of the call (i.e. for 2 minutes), plus the cost of the service charge.
