Pay As You Go is not like a contract, it gives you flexibility and freedom to spend what you need when you need it. Our Pay As You Go rates are just 35p per minute, 15p per text and 10p per MB of data and better yet, these rates don't expire. You also get Go Roam, meaning international travel is a breeze too, as you get to use your phone around the world in 71 Go Roam destinations.

Can't find your details here? If you're on one of our older Pay As You Go tariffs, you can call us on 333 (free) from your Three phone or 0333 338 1001 from any other phone (standard call rate applies) and we'll be able to give you this information.

Top-ups.

To get credit on your Pay As You Go account, you just need to top up. And with every top-up, we automatically give you a free 150MB data allowance which lasts for 48 hours. Once activated, top-ups never expire.

Your My3 account is the easiest and most convenient way to top up. Once you have set it up, simply register your credit or debit card and you'll be able to top up whenever you like. Plus with My3 you can see exactly how you are using your credit or any allowance.

There are other ways to top up:

- At the shops whenever you see the top-up sign – call 444 from your Three phone to activate your top-up voucher. This includes all Three stores.
- Use our easy web top-up service to buy credit with your debit or credit card, or pre-purchased voucher without the need to register.

You can find out more on how to top up at three.co.uk/stay-connected-payg

Our great basic rates for using your phone.

	Per minute/message/MB
Calls to standard UK landlines (starting 01, 02, 03), UK mobiles (any network) and your Three voicemail	35p
UK SMS Text messages (excluding SMS Short codes)	15p
UK Mobile data	10p
UK Picture messages	40p
UK Video messages	40p

All calls made (except calls to short code, EU Roaming calls and the service charge element of calls to premium rate numbers), including the access charge element of calls to service numbers starting 084, 087, 09 and 118 (see page 18 for more info on these numbers), are rounded up to the nearest minute and are charged by the minute.

A few things to remember

- You'll need to activate your Pay As You Go SIM in the UK before you can use it abroad – this just means inserting it into your phone.
- The free 150MB data allowance you automatically receive with every top-up lasts for 48 hours. Your 150MB data allowance is always used first, followed by any Add-on data allowance and finally, any remaining cash credit.
- Each text/photo/video message can accommodate up to 160 characters. Some phones allow for more and these will be divided and sent in numerous messages (depending upon length). These will be deducted from any Add-on allowance or charged individually at our standard rates.
- When you send messages to several recipients at the same time you will be charged separately for each recipient.
- Call Return calls (when you return a call directly to someone who has left you a voicemail message by keying # at the end of their message) are charged at your standard rates or deducted from any Add-on allowance, as if you had made the call directly. Any call-barring restrictions you have will also apply.
- You can only return one call directly from the voicemail service. As soon as you finish the call you will be disconnected and will have to redial into voicemail if you wish to continue listening to your voicemail.
- If you divert your incoming calls to another number, we'll charge you for each redirected call. The cost of the redirected call depends on the type of number you're calling.
- We may end any calls that you make that are longer than 2 hours' duration, in order to prevent you from incurring excessive, inadvertent costs. If this does happen, and you wish to continue your call, please simply redial.
- You can create a Personal Hotspot in the UK or in a Go Roam in Europe destination using your data allowance from an Add-on (up to 12GB per month) or using cash credit.

Add-ons give you great value for money and can be enjoyed both in the UK and while roaming in all 71 of our Go Roam destinations (see page 7).

You can buy an Add-on using your top-up via My3 or dialling 444 from your Three phone. With Add-ons you can:

- Get an allowance of voice, text and/or data (depending on Add-on chosen) which you can use in the UK or our Go Roam destinations for calling, texting and using the Internet (see below).
- Enjoy unlimited data, unlimited minutes and unlimited text with our Unlimited Add-on.
- If you want to use your Add-on's data to create a personal hotspot you can do so, either in the UK or in our Go Roam in Europe destinations, up to a fair use limit of 12 GB per month.

Add-ons give you great value rates for calling, texting and using the Internet.

More about our Add-ons.

When does my Add-on start?

Your Add-on and the allowance it offers start when you first buy it, or from when an allowance it offers is first used.

How long do Add-ons last?

Add-ons last up until midnight 30 or 90 days from the day after they were bought, or when the allowance they offer is first used. For example, if a 30 day Add-on is bought at 10:30am on 5th September it will last until midnight on 5th October. This way you get the full 30 days to use the allowance. Internet Daily lasts up until midnight of the day after it has been purchased, so you get a full 24 hours to use the allowance.

When my Add-on finishes, what happens to any unused allowance?

Any unused allowance is lost.

Can I cancel an Add-on once I've bought it?

Once an Add-on has been bought, it cannot be cancelled. Unfortunately we can't offer a refund if you bought an Add-on by mistake.

Can I buy more than one Add-on at a time?

Yes, you can. Buying Add-ons is a great way to benefit from best value rates, so buy them as often as you need to.

If however you already have got an Unlimited Add-on active, it doesn't make sense to buy another Add-on until it expires.

What is a queued Add-on?

If you have an Add-on active and buy another one which offers the same allowance and has the same validity period, it will wait 'in a queue' until needed.

The queued Add-on allowances will start automatically once your current Add-on finishes, or when an allowance it offers is used up.

Please note, the data allowance provided by our Unlimited Add-on and Unlimited 90 Add-on will not queue as the Add-ons have difference validity periods (30 and 90 days respectively).

Add-ons that provide a fixed allowance of data, e.g. 2GB Add-on, will not queue with our Unlimited Add-on or Unlimited 90 Add-on products.

How do I know my Add-on allowance is running out?

If you've only got one Add-on and it offers a fixed amount of data, minutes or texts, we'll send you a text message to let you know when you've used 80% of your allowance, and then another one when you've run out of allowance. You can also check your remaining allowance by calling 444, or visiting My3.

What happens if my Add-on allowance runs out during a call or whilst I'm browsing?

If your Add-on allowance finishes and you don't have another one queued, we'll charge for the remainder of your call or browsing session at our standard rates.

If you do not have any remaining credit, your call or browsing session will finish. You'll then need to top up before being able to use our services.

How are Add-on allowances and cash credit used?

Any free allowance is always used first (for example the free 150MB data allowance you get with every top-up which lasts for 24 hours), followed by any Add-on allowance and finally, any remaining cash credit.

What calls do Add-ons cover?

Your Add-on voice allowance can be used for calls to standard UK landlines (starting 01, 02, 03), UK mobiles (any network) and your Three voicemail, whether you're in the UK or in one of our Go Roam destinations. Plus, if you're in one of our Go Roam in Europe destinations (see page 8) you can also use your voice allowance for calls to standard landlines and mobiles in that, and other, Go Roam in Europe destinations. But to allow you to make other kinds of calls we suggest you keep your account topped up with some extra credit. These calls could include:

- All other International calls.
- Using your phone abroad, while roaming (except in a Go Roam destination, when you've got an Add-on allowance).
- Calls to a UK Special Number, such as 0845/0870 (see page 17 for more information on these) or International Special Number (see page 19). The cost of all other calls will be taken from your Add-on allowance.

What texts do Add-ons cover?

Your Add-on text allowance can't be used for messages sent abroad from the UK, messages sent and received whilst abroad (unless in a Go Roam destination), photo and video messages or for messages to a shortcode service, e.g. to donate money to a charity. Your text allowance can be used from any of our Go Roam destinations to send standard SMS messages back to the UK, plus, if you're in a Go Roam in Europe destination, you can also use your text allowance to send standard SMS messages to standard mobile numbers in other Go Roam in Europe destinations.

Can I use my Add-on's data allowance to create a personal hotspot?

Yes, if you're in the UK or in one of our Go Roam in Europe destinations.

How do I find out more about converting a top-up to an Add-on?

You can find out how to convert a top-up to an Add-on [here](#) or go to [Three.co.uk/support/top-up](https://www.three.co.uk/support/top-up)

Three reserves the right to suspend, modify, rename or withdraw Add-ons, without notice, at any time.

How does unlimited data work?

- If you have unlimited data with an Add-on, there are no hidden 'fair use policies' within the UK. However, if you're in a Go Roam in Europe or Go Roam Around the World destination, you will be subject to our fair use limits meaning you can use up to 12GB of data each month. Use over this but within your allowance, in a Go Roam in Europe destination, costs up to 0.3p/MB (see page 11).
- You can find out more about TrafficSense™ on our website.

How do you measure data usage?

Data usage is measured in bytes, this is then aggregated up into large units of measure

- Kilobyte (kB) = 1024 bytes
- Megabyte (MB) = 1024kB
- Gigabyte (GB) = 1024MB
- Terabyte (TB) = 1024GB
- Petabyte (PB) = 1024TB

All current data tariffs are charged and purchased as part of an inclusive allowance and / or as part of an Add-on which provides a specified amount of data you can use for a fixed price. Data usage is calculated based on the amount of data that travels over the data network. Please note that usage may include re-sent data packets and packets added to control the flow of data over the network.

Data is charged at each full MB level. Any partial MB usage will then be prorated as per the customer plan.

Using your phone abroad (also known as ‘international roaming’) is automatically and immediately available to you as a Pay As You Go customer. Here at Three, we don’t think that roaming charges are fair. That’s why we offer our Pay As You Go customers both Go Roam in Europe and Go Roam Around the World, which let you use either your top-up credit or your Add-on allowances of voice, text and/or data, to call and text the UK (and between our Go Roam in Europe destinations) and use your data without paying more than if you were in the UK, in 71 destinations around the world. All we ask is that you make sure to activate your SIM in the UK before travelling abroad. Fair use policies apply - see page 11.

Go Roam – use your phone abroad at no extra cost.

Simply choose to buy an Add-on with an allowance of voice, texts and/or data at no extra cost or just use your top-up credit to enjoy Go Roam in 71 destinations around the world.

It's also free to receive calls, texts, photo messages and video messages in our Go Roam destinations (Fair Use limits apply).

How Go Roam works.

Go Roam lets you roam abroad at no extra cost in 71 destinations around the world, whether using your top-up credit at 35p a minute, 15p a text or 10p a MB or with one of our Add-ons. To enjoy Go Roam on Pay As You Go with an Add-on, all you need to do is convert your top-up credit into an Add-on to get an allowance of voice, text or data (depending on Add-on chosen), which may be used either in the UK or in our Go Roam destinations. The Go Roam data limit of 12GB refreshes monthly on the day the SIM was originally activated. You can then use the allowance in the UK and any Go Roam destination to call and text the UK, and use the Internet, just like you would back home. Plus, in our Go Roam in Europe destinations you can also use your voice and text allowances to make calls and send texts between Go Roam in Europe destinations and to local numbers in Go Roam destinations.

As a reminder, Go Roam can be used in the following destinations:

Go Roam in Europe	Go Roam Around the World
Aland Islands, Austria, Azores, Balearic Islands, Belgium, Bulgaria, Canary Islands, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, French Guiana, Germany, Gibraltar, Greece, Guadeloupe, Guernsey, Hungary, Iceland, Ireland, Isle of Man, Italy, Jersey, Latvia, Liechtenstein, Lithuania, Luxembourg, Madeira, Malta, Martinique, Mayotte, The Netherlands, Norway, Poland, Portugal, Réunion, Romania, Saint Barthélemy, Saint Martin, San Marino, Slovakia, Slovenia, Spain, Sweden, Switzerland, Vatican City. Out of allowance charges when in a Go Roam destination.

If you have an Add-on, we've highlighted in grey how your data allowance, calls and texts to standard landline and mobile numbers can be used at no extra cost (Fair Use Policies apply). You'll be charged if your allowance runs out. If you use up all of your Add-on allowances when in a Go Roam destination or don't have an Add-on, you'll be charged for additional use at the 'out of allowance' rates below.

Band (See table on page 8)	Data (per MB)	Voice call/text (back to the UK) (per min/per text)	Voice call/text (Go Roam in Europe) (per min/per text)	Voice call/text (Go Roam Around the World) (per min/per text)	Voice call/text (Anywhere else in the world) (per min/per text)	Voice call (receiving) (per minute)	Receiving a SMS or MMS (per message)	Sending MMS (per message)

What other useful information is there for using Go Roam?

If you've chosen to convert your top-up into an Add-on, you can use a portion of your allowances in our Go Roam destinations, subject to our fair use policies. These fair use policies differ depending on whether you are roaming in a Go Roam in Europe or Go Roam Around the World destination and may be updated from time to time:

Go Roam in Europe

- There are no fair use limits for calls made or texts sent to standard landline or mobile numbers within our Go Roam in Europe destinations or back to the UK.

Go Roam Around the World

- If you're roaming in our Go Roam Around the World destinations, you can use a portion of your Add-on allowance of voice minutes, texts and data each month at no extra cost:
- If you have more than 3,000 texts included in your allowance, you can send up to 3,000 texts back to the UK each month from a Go Roam Around the World destination.
- If you have 3,000 or more minutes included in your allowance, you can talk for up to 3,000 minutes on calls made to standard UK landlines or mobile numbers each month.
- If you exceed any of these fair use limits for any two months within a rolling 12-month period we have the right to suspend international roaming on your account, meaning you will no longer be able to use your device or allowances abroad. Of course, we will let you know in advance if this is likely to happen.

Go Roam in Europe and Go Roam Around the World

- If you're roaming in our Go Roam destinations, you can use a portion of your Add-on allowance each month at no extra cost. If you use 12GB and still have remaining data allowance available, you can continue to use your data, but this is subject to a surcharge currently 0.3p/MB.
- Go Roam is intended for our UK customers, who are UK residents visiting one of the destinations for short periods, like holidays or business trips. It isn't designed for people who live abroad or stay for extended periods.
- As such, if you roam exclusively in one or more of our Go Roam destinations (including both Go Roam in Europe and Go Roam Around the World) for any two complete months in a rolling 12-month period, we may suspend international roaming on your account, meaning you will no longer be able to use your phone or device abroad. Of course, we'll let you know in advance if this is likely to happen.
- If you spend a full month abroad but some of that time is spent in a destination that isn't included in Go Roam, this fair use policy won't apply.
- In Go Roam destinations, Three may deploy traffic management measures, known collectively as TrafficSense™, to protect the network and to give customers the best internet experience. Find out more about [TrafficSense™](#)

Pay As You Go customers are required to activate their account by inserting their SIM the UK in order to use Go Roam. Go Roam is designed for Three customers to enjoy their allowances both at home and in our Go Roam destinations. As such, use of a SIM card exclusively to receive inbound calls in a specific Go Roam destination may result in suspension of that SIM card. Our systems are designed to identify this automatically. If you believe that your account may have been incorrectly suspended because of this, please call +44 7782 333 333.

You can find out more about Go Roam at three.co.uk/go-roam. And just so you know, we reserve the right to extend, withdraw or modify the terms of Go Roam and/or the destinations of service included at any time.

What about destinations not covered by Go Roam – how much will it cost to use my phone there?

These are our standard charges for using your phone abroad. Internet and data usage abroad.

When you roam onto other international networks where data roaming is available, the charges below will apply. However, if you're in a Go Roam destination, and have converted part of your top-up to an Add-on, you can use your allowance to call and text the UK and use your data without paying a penny more subject to our fair use policy. See page 7 for more information about Go Roam.

The speed and availability of Internet access when abroad will depend on a number of factors, including which network you are roaming on and the services they have available – for example, 4G networks may not be available, in which case you may only be able to enjoy 3G speeds. Other factors which may affect the speeds that you'll experience include your distance from the nearest mast, your location in a building, local geography and the type of device you're using. Certain services such as audio and/or video streaming may be slower as a result than in the UK. For the latest information on which countries you can roam in, and on which networks, visit [Three.co.uk/roaming](https://www.three.co.uk/roaming)

Band	Countries	Cost per MB
Data Band 1	Monaco	10p

Charges for calls from the UK to Special Numbers.

As part of UK Calling, from 1 July 2015, calls to numbers starting 0800 and 0808 are free and calls to numbers starting 084, 087, 09 and 118 are now split into two elements: an Access Charge (which we set, at 45p per minute and is charged by the minute) and a Service Charge (which is set by the company you're calling – they'll tell you this). For example, if you call a number starting 084, 087, 09 or 118, and your call lasts for 1 minute and 30 seconds, you'll pay £0.90 for the Access Charge element of the call (i.e. for 2 minutes), plus the cost of the service charge.
